

Bassey & The Gospel Team

PITCH

Bassey grew up in the church but defends the idea that Gospel music is a genre that does not belong only there. He defines it as a music style dominated by vocals and his goal is to push the boundaries of gospel music, taking it to the masses.

Surrounded by three talented singers, a beatboxer, a pianist and a cellist, he takes his music on the paths of Gospel and its universal values of sharing the « Good News ».

Discover the strength of Gospel music expression (clapping, harmonies, good vibes...) revisited through delicious arrangements, original compositions and a careful staging.

Some sequences add touches of African percussions and create moving or rhythmic atmospheres that highlight voices driven by the organic pleasure of the choir.
